PTOL-413B (04-03) Examiner Initiated Interview Summary Paper No. 20050608

Continuation of Substance of Interview including description of the general nature of what was discussed: I explained to Mr. Pieprz that I do not see any support in the specification for "a file converter configured to convert image data into a predetermined plurality of file formats, the data of each file format including all of the image data". Mr. Pieprz returned my call, however, no specific reference was made to the disclosure describing the file converter for conversion of data into plurality of file formats. .
